

Disposable ECG Leadwires

Philips & Spacelabs Healthcare Compatible

3 Lead

5 Lead

V Leads

9Line Single Patient Use ECG Leadwires are fully sourced and manufactured in the USA for Rising Eagle Medical, a SDVOSB. These leadsets were designed to connect with the most common medical devices found in the Department of Veterans Affairs to allow the seamless transition of patients while also supporting infection control initiatives.

Key features include:

Ease of Use

- Available on MSPV
- Customizable, peelable, full shielded ribbon cable with built in cable management
- AAMI color-coded connections for easy identification and placement
- Simplified workflow allowing for seamless transition of patients without removing leadwires
- Helps support infection control initiatives
- Optimal length to accommodate all departments from the OR to MedSurg/Telemetry
- Multiple options—3, 5 or 10 leads with snap or pinch locking mechanism
- Latex Free

Compatible with

- Philips® and Spacelabs® Healthcare Monitors
- Other Patient Monitors with conversion cable

Made in the USA and
on MSPV

OUR STORY

Rising Eagle Medical is a Service Disabled Veteran-Owned Small Business (SDVOSB) established in 2016 by a retired Warrant Officer (United States Army) with over 21 years of Army medical equipment management experience. The owners of Rising Eagle have combined 46 years of experience in military logistics, equipment and materials management along with extensive medical equipment and consumables sales experience. We proudly serve active duty service members, their families, and veterans across the country by providing medical consumables and healthcare solutions to Government healthcare facilities.

OUR MISSION

Distinguish Rising Eagle Medical as the preeminent SDVOSB servicing United States Government healthcare facilities with high quality products manufactured in the United States.

THE LOGOS

The Rising Eagle logo represents the founder's prior service as a Warrant Officer in the US Army. The eagle resembles the Warrant Officer Branch insignia known as the "Eagle Rising". The capital letters in our tagline "Managing EveryDay LOGistics" spell out "MEDLOG", the key branch we work with as a SDVOSB – Medical Logistics. We fully understand the unique challenges facing this department to ensure the correct supplies are delivered to the right place at the right time.

Rising Eagle Medical has launched 9Line as the name for our own branded product line. 9 Line is a military term used with MedEvacs to call in injuries sustained during combat or on the battlefield. It is a standardized report with 9 Lines to allow for simplicity in communication during a stressful time.

Holding true to Our Mission, 9Line disposable ECG Leadwires are the first of its kind to be fully sourced and manufactured in the United States.
